The surprised how soon your seeds will be held in 1934.

sengers in the new 1934 Chevrolet | springing, the wheels and spring mechanism are rigidly get a ride like the glide of an airplane. One of the main factors in improving the riding qualities of the new car to such a great extent is the "Knee-Action"—or independently sprung front wheels, to use the technical term.

So much has been written about independent springing that the public has doubtless concluded that it is ing that the public has doubtless concluded that it is something too technical to understand. As a matter of rear end of the car to leap into the air and throw the something too technical to understand. As a matter of fact, there is nothing complicated about either the principle involved or the construction of the system. Chevrolet's "Knee-Action" enjoys the advantage of being enclosed in a welded weathertight housing in which the entire spring mechanism and shock absorbers ride up and down in a bath of oil.

An automobile gives a perfect ride when both the front and rear springs have the same "frequency," or tension. Actually this has been impossible to carry out in the past because the front springs had to be over twice as "stiff" as the rear springs in order to hold the twice as "stiff" as the rear springs in order to hold the spring front axle, wheels and brakes in place. In independent arms. stiff" as the rear springs in order to hold the spring vertically at the ends of strong, steel horizontal

> ALABAMA POWER COMPANY BIRMINGHAM, ALABAMA

To the Customers of Alabama Power Company:

In this letter we are giving you some facts regarding the relation to Alabama Power Company of our holding company, The Commonwealth & Southern Corporation. These facts are presented for the purpose of correcting a current misconception regarding that relationship.

The statement has been made by many aspirants for political office that the holding company, which owns all the Alabama Power Company common stock, is "milking Alabama Power Company at the expense of the public." By this it is intended to convey the mpression that The Commonwealth & Southern Corporation drains the Alabama Power Company of revenues received, thereby adding to the Cost of your electric service.

Like many other statements made by those who do not have the facts, this is erroneous. Actually the very opposite is true.

Within the past four years The Commonwealth & Southern Corporation has put more than \$20,000,000 into Alabama Power Company to enlarge and improve the system and service and retire certain prior obligations of Alabama Power Company. For this money, the holding company received common stock. The Commonwealth & Southern Corporation already owned the entire common stock interest in Alabama Power Company; therefore these additional common stock investments did not improve the earnings position of the holding company. On the other hand, through this aid from the holding company your service has not only been improved but much has been done to strengthen the security of bond and preferred stockholders, who invested their money in Alabama to help us furnish you with adequate, dependable and low cost electric

service.

chael, Lola Mae Jones and Messrs. Henry D. Jones, Mayo Prescott and
Catton Balania C
Cotton Reduction Campaign Is Extended To February 15
AUBURN, Ala., Feb. 6.—With a notification last week from Washington extending the cotton reduction.
tion campaign through February a 15, Dr. L. N. Duncan, extension S
service director, advised county tagents to continue acceptance of h
Contracts until that time.  The acreage already rented to a
the Secretary of Agriculture dur- ing the month of January has sur- passed by several thousand the
number taken out of production in 1933, and Dr. Duncan urged agents
to complete the sign-up in all un- finished areas as soon as possible.
Latest tabulations at Auburn of showed that over 900,000 acres C
have been retired from cotton pro- duction in 1934-35. It is estimat-
ed that the total acreage to be retired will approach the million mark within a few days.
From present indications, Ala- S bama will be one of the first states in
to reach the quota of 40 per cent reduction in cotton acreage. This M
will mean that over 10 million dol- S lars in benefit and rental payments C
will be paid to Alabama farmers R for limiting the 1934 production
to 2,000,000 acres.  County agents in practically every section of Alabama have re-
ported splendid cooperation on the
supply of cotton in order to regular late its price. They feel that the fo
success of the plow-up campaign di last Summer demonstrated beyond
doubt the value of present plans. at It is believed that cotton would be have seld for for
have sold for five or six cents per si pound in 1933 if the full crop had been harvested.

## P. Mullins, the Rev. and part the important information State, said taxes to be collected I hereby declare myself to be a "Pocket Book News"

For The People Of Elba

When this week's mail brings your statement for last month's electric service, you will find good news-"pocket book news"! If you use electricity only for lighting and perhaps a few small appliances, consuming, say 38 kilowatt hours per month, your bill for the period will be only \$2.82 net, instead of \$3.28, as it was last month. If you use an electric range, refrigerator, water heater or other major electric appliance, and your consumption is 200 kilowatt hours a month, your current bill will amount to \$7.79 net, instead of \$8.29.

In other words, your electric service company has lowered its rates, effective with the current month's billing—a step which means a substantial cash saving to you. Multiply your saving on the current bill by 12, and you will have some idea as to how much you will save in a year's time, by means of this new, lower rate.

Is it not a comfort, in these days of steadily increasing commodity prices, to find the cost of electrical service maintaining its ever-downward trend? The new rate, which allows you to use electricity for only 11/2c per kilowatt hour, after you have used 175 kilowatt hours, makes it possible for you to know the joys and conveniences of electric cookery, electric refrigeration and electric water heating, at very low

Use plenty of electricity—it's cheap! No other equal expenditure in your household budget brings you a greater amount of comfort, convenience, health and happiness.
